DETAILED ACTION

Examiner's Note

1. The indication given on 8/12/2003 in paper 8 that claims 1-11, 14-20, and 34 were allowable has been withdrawn and prosecution has been reopened in respect to claims 9-11. See below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 9 recites the limitation "said epitaxial semiconductor" in line 2. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 10 recites the limitation "said buffer layer" in line 1. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 11 recites the limitation "said buffer layer" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

6. Claims 1-8, 14-20 and 34 are allowed.
7. The following is an examiner's statement of reasons for allowance:

Although the MBE method of deposition of quaternary thin epitaxial films was known in the art, that art did not disclose or suggest the use of the claimed gaseous precursor (H_3YCN) in such a MBE processes. The examiner acknowledges the known prior existence of the gas composition. However, there was no prior art suggestion to use the specified gas as the precursor in MBE processes (see Kern et al. in Journal of Materials Research 1993 and 1998 from IDS).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

8. The examiner notes the amendment of 9/16/2003 directing the cancellation of claims 12-13, 21-33, 35-45.
